

K-LOVE (104.3, 96.9, 102.3) is a wonderful station to have available in the Northern KY/Cincinnati, OH area. This is the only Christian station available in the area that constantly plays music without all of the talk. They reach so many people across the country and all over the world. I support them financially because of their mission. If this was no longer available due to the LPFM broadcaster, I don't know what I would listen to that would be more uplifting and encouraging. There is nothing else available that does that. I know of so many others in the area that listen as well and truly enjoy this station. It's nice to know that when I am out of town I can still find K-LOVE in other cities. It's also nice to know that friends and family across the country can be listening to the same thing I am at the same time! Please see that K-LOVE remains available to all of us around the country. Thank you for your time.
